MIDIbox Tools

Various Midiboxers use their programming knowledge to make programs which are usefull for other midiboxers. If you have made a MIDIbox related tool, post a description and link here!

MIOS Studio

MIOS Studio is an integrated development environment for MIOS. MIDI Clock sender/receiver, SysEx Upload Tool and Editors (by Serge) http://serge.midibox.org

Note: The SysEx loader and the editors have been programmed for the old PIC16F based MIDIboxes and don't support all the features of the MIOS based MIDIbox64/MIDIbox64E. The SysEx upload tool doesn't work with MIOS based MIDIboxes yet, please use MIDI-Ox and the mk_syx script instead.

MIOS versions of Serge's SysEx Upload Tool and Editors http://miostools.midibox.org

CLCD character editor made by Captain Hastings http://lcd5x8char.midibox.org

GLCD font editor made by Captain Hastings http://glcdeditor.midibox.org

SIDstation patch reader made by JobeC
http://sourceforge.net/project/showfiles.php?group_id=116852

MIDIbox64/64E Bankchanger made by Didifeed http://www.ddf.at/bankchanger/

MIDIbox Patch Manager by TL, tool to manage the patches of MidiBox? SID & FM
http://www.automatic-brain.de/midibox/

MIDIbox SID VSTi made by S.M. http://vst-factory.saschazone.de
