

Hello my name is **dj3nk**.

many of you will think my nick has something to do with "deejaying". hmmm, not directly. I'm also hobby dj but its my "call name", a short version of my familyname. so who has made this page ?? it's "de Jenk".

So enough of my nick coming to my (coming) midiboxes:

Due my friend who has sit down on my digital camera I'm not able to make some photos atm but I consider to search for an adaptercard from transitflash to compactflash, so I can that some little pictures from my mobile phone as soon as possible.

## my MIDIBOXES

### Midibox16

---

```
16 pots
4 buttons (menu handling)
1 encoder (bank switching)
1 24lc512 bankstick
40ch. display (big thx 2 pay_c)
case in progress (wood)
```

I've finished this little Midibox64 with 16 pots and a 1 lined 40-character display. It's stuffed with a bankstick inside. Because there are just 16 pots I want to split the banks into 64. Thats the same amount a "complete" Midibox64 would save.

### 4x4 MidiboxRouter

---

```
core finished
4 iic modules nearly finished (no optocouplers)
plastic case in progress
```

when ready and fully plugged with some midistuff I'm gonna update it to a 8x8 with some firmware modifications for easier routing and perhaps with a display).

### Single Midibox SID

+ control surface c

one core and one sid module finished  
C64 PSU available (big thx 2 pay\_c)  
SID available (big thx 2 my friend Manu)

## my non midibox related stuff

YAMAHA PSR-36  
YAMAHA PSR-48  
CME UF-6 Masterkeyboard  
Modules for 8channel edrum ([www.edrum.info](http://www.edrum.info))  
Access Virus B  
Steinberg Houston Controller  
Hercules FW 16/12 Firewire audio interface  
Boss BX16 Analog Mixer  
DAB 1240 preamplifier  
M-Audio Studiophile LX4 monitor speakers  
DIY talkbox  
AKG D330B microphone  
AKG D130 microphone  
Soundblaster Audigy 2 with kX drivers

## planned stuff

lots of midiboxes (fm,cv,seq,lc)  
analogue filterbank  
TB9090  
much more in my head but not in my moneybag ^^

## tribute

THANKS TO TK FOR GIVING US THIS GREAT OPPORTUNITY BUILDING OUR OWN MIDIPERIPHERIE. He had (he still has I think) the possibility to go commercial, but he hasnt. It is the best what he has done not to go :D

Another big thx goes to pay\_c who has sent me lots of very useful stuff! He's gonna get a big tribute

by me as soon as possible !

... more soon ...
