- Morphing function which allows to fade smoothly between two pot scenes
- optional 8 CV outputs with MBHP\_AOUT
- optional 64 CV outputs with MBHP\_SHX8

# Skills / Equipment Required

- Preparation
- Soldering

## Hardware

### What modules do I need?

- 1x Core Module
- 0-2 AIN Module
- 1-4 DIN Module
- 0-4 DOUT Module
- 0-1 AOUT Module
- 0-1 SHX8 Module

I want 72 buttons, 10 encoders and 12 LED's. How many of each module do I need?

I'm going to build a calculator

### List of parts

-list of pots, buttons, faders and blah - suggestions on good parts and where to buy them + how to hook them up - links
