[The MIDI Specification](#)
The MIDI Specification is published by the MIDI Manufacturer's Association, ie, MMA (although this online document gives you the same information for free, in easier-to-understand language, and in many cases, with even more detail than the official document).

MIDI is the language of gods. The MIDI Technical Fanatic's Brainwashing Center is a cyberplace dedicated to those individuals who wish to attain a higher level of existence than that of the plodding, MIDI-illiterate scum around them. Here, you will find MIDI technical documents and programming information, MIDI tutorials which explain various MIDI topics in easy-to-understand terms, MIDI software tools, examples of some very good uses of MIDI (in the form of well-constructed MIDI sequencer files), and blueprints for the surgical installation of a MIDI jack upon the human body so that a musician can directly communicate with his MIDI gear.
