

LTC Module can be used to add Midi-thru port to Midibox, to Midi input/output activity LEDs or to connect Midibox to Computer RS232 port used as Midi a interface.

- [LTC Module](#) ^{uCApps}
- [MIDibox-to-COM](#) ^{uCApps}

An easier way to connect to a COMM port would be to follow the “MIDibox-to-COM” instructions, except using an [RS232 Shifter Kit](#) or the pre-assembled SMD version, [RS232 Shifter SMD](#) from SparkFun Electronics.
