

Welcome to my page. In addition to the MBMixer, I needed a place to put the code for MBStor. Hopefully this is it.

[mbstor.zip](#)

MBStor is the “super bankstick” project that allows us to use USB flash drives for file storage. It also plays MP3 and some MIDI files, too.

I have added this to my MBMixer as an MP3 file player.

See the readme in the archive for more details.

Have Fun, LyleHaze
