

WILBA'S 6582A SID MEGA SALE!!!

Current status:

MEGA-SALE #7 is IN PROGRESS ~442 SIDs are being tested, packed and posted.

MEGA-SALE #8 will happen in late January. There is no waiting list. Email your order directly to me.

NO CASH? WANT TO GET SOME LATER? Just email me with a “pre-order” for a future MEGASALE, so I can email you later. I call it a “pre-order” but it's really just me notifying you that I will have more to sell soon and letting you make a real order then. You can cancel at any time. **BE SURE TO EMAIL ME YOUR MIDIBOX USERNAME AND DESIRED QUANTITY OF SIDS**

THE GOODS

6582 (6582A) SIDs are just like 8580 SIDs and **not** like 6581 SIDs. They have the filter that works best for the MB-SID V2 Bassline mode, low noise, less bugs. Look elsewhere for whether 6582/8580 is better/worse than 6581.

I use eight of them in my [MB-6582](#) MB-SID V2 Synth, but you already knew that.

THE DEAL

6582 SIDs now cost **AU\$30** each plus postage and handling fees.

I add up the exact cost of SIDs and postage in Australian dollars, and then multiply by 1.0351966873706 to add the handling fee.

Postage will be calculated as the actual cost to post, plus packaging. The PayPal invoice will include the handling fee in the postage amount. Most of the time, postage will be AU\$6.15 for an airmail letter. If you are ordering more than 8 SIDs, I might choose to upgrade the postage to an insured parcel, where available.

All SIDs I sell are tested before packing to ensure the oscillators and filter work. These chips are new-old-stock, not pulls from Commodore 64, and are unused when sold, with absolutely no long term guarantee. However, considering these chips have been safely tucked away in antstatic tubes for 15 years, they are *less likely to fail* than one you find in Commodore 64 that has been power cycled thousands of times and been alternately cooked and frozen in a garage etc. From my experience, after testing over **two thousand** 6582 SIDs, only 3 were found dead. After salvaging about eight 6581s, all were found to have dead filters or dead oscillators.

If you find any chips faulty through initial testing with hardware that is known to work, I might allow you to return them and get a refund or replacement if possible.

HOW TO ORDER

Email your order to: Jason.S.Williams@gmail.com

with subject: 6582A SID MEGA-SALE #8

The contents of the email should be (without labels!):

```
MIDIbox username
Real name
Postal Address
COUNTRY
Contact Email Address (same one you are using to email me)
PayPal Email Address (the email address you use to login to PayPal)
Quantity of 6582A SIDs
```

example:

```
Wilba
Jason Williams
2 Amaroo Ct.
Burwood East 3151
AUSTRALIA
Jason.S.Williams@gmail.com
Jason.S.Williams@gmail.com
8
```

I will send an immediate reply to let you know if your order can be handled in MEGASALE #8.

I will send a PayPal invoice around 20th Jan. You are expected to pay within a week of receiving the invoice. Please check your email regularly between now and when I send a notification of your order being posted. Any problems with payment, please email me about it.
