GM5x5x5 Parts List for Allied Electronics

This is a price list to be used with Allied Electronics for the gm5x5x5 module, version 1.1 (Red PCB). One of the reason I prefer Allied over, say, Mouser is faster shipping to my house (turn around time is 1 day at the cheapest shipping most of the time). Mouser has a larger selection, however, though Allied does offer some items cheaper and their customer service has always been extremely nice and helpful.

The list below is what I used to build my own gm5x5x5, though one substitution I would make is using DIL headers for the jumpers S1-S3 and J8 jumpers.

Sorry there is not a nice link to a pre-populated cart. I saved my own cart but there appears to be no way to offer it publicly. :(
