

LRE8x2 096 SSD1306-BAR for Eurorack

Eurorackpanel;

LRE-OLED-BAR & LRE8x2 V2.5

This Design is planned for SMD-LEDs - and Screens, - it only will work for transparent Plates - else it must be adaptet (mor drill holes)

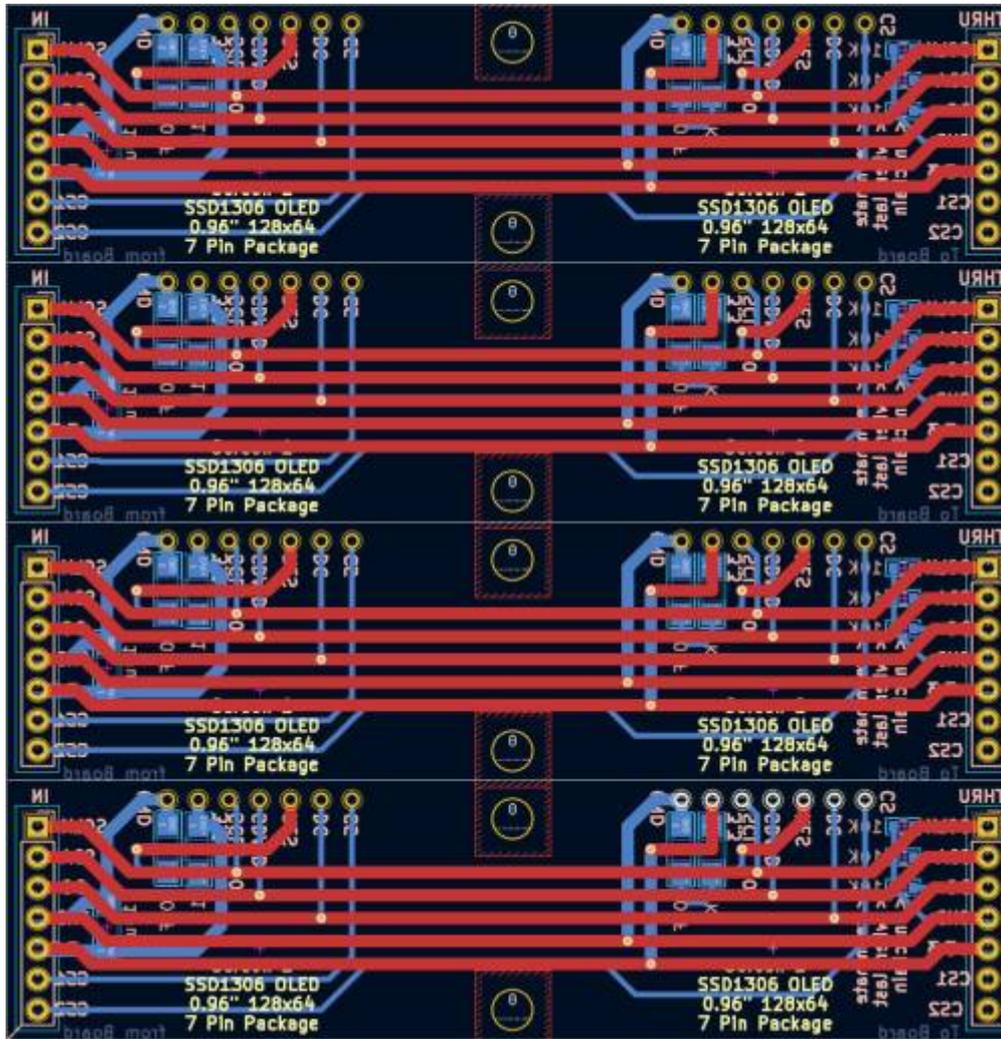

designed by Michael Sigl > www.siglut.at

I made this PCBs to use it with Fairlightii's [mb-lre8x2cs_pcb](#)

4x PCBs on one 100x100mm

there is no V-Groove, you have to cut it on the marking groove it on top and back, with a new sharp cutter, do it several times, then break it

With this Method you pay for 20 PCBs 8€ all inclusive to EU-Austria

So you can Stuff 5 LRE8x2 with this.

Here are the gerberfiles for production - i made it with [JLPCB](#)

[lre-oled-eva-gerber.zip](#)

I made a DXF File which you can send to [Formulor in Germany](#)

i panalized it so there are 2 Plates in it

I payed 40€ summed for booth plates incl shipping from Germany to Austria

[2xIre-oled-bar-dxf.zip](#)

Recommend Material from Formulor:

3mm Acrylglas GS 384x384mm, mittelgrau transparent(7C83)

To Do

waiting for christmas...

Community users working on it

- **Phatline** = PCB & Schematic, UI-Programming, Documentation...

Just let a Private message on the forum to user already involved.
