MIDIbox Wiki Instructions

Wiki Syntax

The best way to learn the syntax and how it is used in the midibox-wiki is just to study existing pages. The syntax is easy to read and learn.
Follow this link to learn more about the syntax.

About Namespaces

All wiki-pages are organized in namespaces. A namespace works excatly like a folder, ':' is used as a separator, links can be absolute or relative to the current namespace:

```
'[[:home | Home]]' links to the page 'home' in the root namespace
'[[.:mbhp:module:din | DIN digital inputs]]' links to the page
'mbhp:module:din' in the current namespace
'[[din_dout_pin_list | DIN & DOUT pin table]]' links to the page
'din_dout_pin_list' in the current namespace

The text before the '|' is the page to link to, the one after it is the
linked text.

note that 'mbhp:module:din' would **not** be relative to the current
namespace. It would be equivalent to ':mbhp:module:din'
```

If you want to read more about DokuWiki-namespaces, follow this link.

Note that if you are on the page ':home:mbhp', you are in the namespace 'home', **not** 'home:mbhp'. This is a bit confusing, because there is on one hand a **page** called 'mbhp', on the other there is a **namespace** called 'mbhp' (:home:mbhp), for example 'home:mbhp:module:din'. To link from the **page** ':home:mbhp' to ':home:mbhp:module:din' relatively, you would use '.:mbhp:module:din'. Of course you could also use the absolute link ':home:mbhp:module:din'.

However, in most cases it will be easier and safer to just use absolute links.

Namespace Map

This is the namespace-structure of the midibox-wiki. All information concerning the midibox-project has to be somwhere in the 'home' namespace, the 'wikify' namespace is the place for information about how to edit/update the midibox-wiki.

- home
  - project
    - controller

        - project name if required
      - sequencer
        - project name if required
      - synthesizer
        - project name if required
      - misc
        - project name if required
  - mbhp
    - module
    - pic
    - stm32
  - mios
  - mios32
  - skills
  - troubleshooting
  - svn
  - community
  - bulk_order

- wikify
  - template
