MB-6582 Parts Bulk Order

This is a bulk order for MB-6582 control surface parts, available for **Australians Only**

(If you live in Europe or the U.S., you have access to many good online stores which can sell these parts. I am running this bulk order for the guys in Australia who don't want to pay the excessive postage costs to Australia just for a handful of parts. If you also live in some distant corner of the world, please PM me and I might allow you to join this bulk order.)

Set of switches = 50 switches

Set of rotary encoders = 15 rotary encoders

Set of knobs = 15 “Waldorf” knobs from ALBS (just like the ones I used on TK's Mk II). They come in black with red, white or grey.

Price will be what I can get them for, which I guarantee will be cheaper than any other price you can get anywhere, eg. switches < 0.50 AUD, rotary encoders < 2 AUD each.

This bulk order **will not include** the PacTec PT-10 case, panels, PCBs, etc. If you want a good deal on PacTec PT-10 case and panel, then look at this bulk order here:

If there is enough demand, I might also arrange for the 4×20 red/black LCD and a set of ~120 red LEDs (i.e. for people wanting to make one “just like mine”). Otherwise, you can order the LCD directly and get the LEDs from SmashTV.
